BIOCHARPROJECT.ORG

Biocharproject.org is an Australian foundation dedicated to biochar. Our mission is simply to spread the word - Biochar -.We have had an online presence since 2009 and have always shared our findings on many breakthroughs our research farm has made. From new biochar methods through to new biochar applications. Our hall marks are the Charmasters training, Moxham TFOD design, Avachar the biochar movie and Biocharindustries.com a one stop commercial biochar shop. Regards Charmaster Dolph Cooke

Byron Biochar (BB) delivers bio-products and bio-services to growers in the Northern NSW & Sth. East Qld. This includes being a Distributor of Char & Wood Vinegar created by Clean Advanced Australian Pyrolysis technology, Biochar Kilns, a Farm Scale Mobile Biochar Service using the Kon-Tiki Byron Flame Curtain Kiln and is the driving force behind the Australia New Zealand Biochar Conference (ANZBC17) coming of the back of three previous successful conferences. BB also offers a Consultancy Service to help fast track your own Biochar Production, Soil Sampling Service and monitoring. We are a Social Enterprise that uses triple bottom line accounting techniques to measure our success and enjoy sharing information that benefits the industry and society as a whole.
